

PESTICIDE APPLICATION NOTIFICATION

This notice is to inform you of a pending pesticide application at the facility/home noted below. You may wish to discuss with a representative of the day care facility/home what precautions are being taken to protect your child from exposure to these pesticides. Further information about the product or products being applied, including any warnings that appear on the label of the pesticide(s) that are pertinent to the protection of humans, animals or the environment can be obtained by calling:

National Pesticide Telecommunications Network Info. Line at 1-800-858-7378

or

NYS Dept. of Health Center for Environmental Health Info. Line at 1-800-458-1158
